

ACTI'Fit

(caractéristiques techniques)

J37217

1- **The 70 x 70mm post** is made of painted galvanised steel, ensuring robustness and durability.

2- **The cap** is made of painted stainless steel.

3- **The structure of the equipment** is made of painted galvanised steel. The coloured panels are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

4- **The polyurethane foam seat** ensures lasting comfort. Polyurethane foam is a resistant and shape memory material that helps to prevent overheating.

5- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

6- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
