

# Portiques

(caractéristiques techniques)

J436-C

1- **The 95 x 95mm posts** are made of painted galvanised steel, ensuring robustness and durability.

2- **The horizontal beam** is made of non-painted galvanised steel.

3- **The swing bearings** are made of stainless steel.

4- **The swing seats** are made of shock absorbing moulded honeycomb rubber. The swing chains are made of stainless steel. The seat fixing brackets are made of 10mm stainless steel wire. PVC sliding rings are fitted to limit the wear of the metal parts over time. The rings are accessed by a vandal proof, stainless steel shackle.

5- **The swing seat** is made of a stainless steel frame with a rubber seat pad incorporating a stainless steel cable. The swing chains are made of stainless steel.

6- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

7- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
